An efficient technique for determining a price is to send out a survey to your present customers. If these clients have already bought an e book from you, ask for his or her opinion when it comes to

price. Do that by creating a gross sales web page for the brand new book, however do not include a value on that page. As a substitute, add quite a few links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another technique is to check out costs by creating a variety of duplicate sales pages with totally different costs on each page. Make sure that your gross sales copy is exactly the same on each page, and includes your promoting-handle sentence. Then work out for every web page the conversion ratio between visitors to your site and sales of your book. This can let you know what your optimum price is.

Ultimately, when you've written a guide that solves a problem or presents a new technique, your book will usher in both traffic and profits.
