An efficient technique for figuring out a price is to send out a survey to your present customers. If these prospects have already bought an book from you, ask for their opinion by way of price. Do this by creating a gross sales page for the brand new e book, but do not embrace a price on that page. One other technique is to check out prices by creating a number of duplicate sales pages with completely different costs on every page. Make sure that your sales copy is precisely the same on each page, and includes your promoting-handle sentence. Then work out for each web page the conversion ratio between guests to your site and gross sales of your book. This will let you know what your optimum price is.

In the end, if you happen to've written a guide that solves a downside or presents a brand new approach, your guide will bring in both traffic and profits.
